

## Internship 40% 6 months

Giger Energy GmbH is an engineering company working in the field of renewable energy, especially for solar energy since 2021. Project management and planning of photovoltaic systems is a very active and growing business field. The management of business offices belongs to further activities. The initialization and implementation of projects includes an exciting and varied work activity. For the addition to our team, we are looking for a motivated person for the internship starting immediately or by appointment.

### Your tasks:

- Support the project manager in planning and organizational tasks in the areas of photovoltaics and energy management systems.

### Your profile:

- Completed technical apprenticeship with federal certificate of proficiency desirable
- Interest in renewable energies
- English very good
- German or French very good in oral and written form desirable
- Good computer skills (Office 365)

### We offer:

- Thorough introduction
- Opportunities for further training
- Possibility for semester and final thesis
- Diverse range of tasks with a high degree of independence
- Flexible work location (home office and office)
- Possibility of permanent employment

We look forward to receiving your application by mail to [kontakt@giger-energy.ch](mailto:kontakt@giger-energy.ch).

Christoph Giger, Managing Director
